Whig and Courier.

John S. Sayward,—Editor.

MONDAY, APRIL 1, 1850.

Mr. Toombs, of Ga., has come to the conclusion that the General Assembly of his State, has rather over-stepped the matter in making the admission of California "a measure of Southern redress" by convention. He says:—

"I deeply regret that a just cause should be endangered by the assumption of such an unwise and untenable position. Congress has the express power to admit new States. The admission of California under that power is purely and solely a question of Congressional discretion, and would present neither a just nor a sufficient cause for State interposition or revolutionary resistance. It would neither present a case of the usurpation of power not granted, nor the abuse of a granted power. I cannot believe that its insertion was not based upon a just regard for the public welfare, but that it was prompted mainly by that disposition to promote local party scheme and objects which so eminently marked and disgraced the action of the majority of the General Assembly."

Mr. Toombs says he shall, as a member of Congress, vote upon the California question as he may think proper, and he adds to his instructors:—

"As a citizen of the State, I shall oppose the action proposed by the Legislature, even if California shall be admitted against my vote."

This is tart and timely, and comes from the right quarter.

☞ The Bath Tribune, in alluding to the causes of crime expresses the belief that it is often a desire, which too many seem to indulge in, of living without labor. The few who live in seeming ease must possess superior fortune or talent. Without one of these important requisites, there is only one way of living honestly and respectable in this wide world; and that is by close and earnest industry: this, when buoyed up by temperance and economy, will surely lead to happiness and prosperity.

☞ The Portland Argus states that a man by the name of William Joice, dropped down dead in Mr Justin Kent's store in Fore street, 29th inst. He had left his house about five minutes before apparently in good health, (except complaining of a pain in his breast,) having just partaken of a hearty dinner. He was a joiner by trade, about fifty-five years old, and has left a wife and two children.

Many of the sanguine friends of Dr. Webster who have all along felt confident in his innocence, manifest much trepidation at the ground assumed, and look upon it as in a great measure yielding the case. It has been assumed with great positiveness that the whole matter would be clearly proved to be a conspiracy.

☞ The Skowhegan 'People's Press states that a new Temperance Society has just been formed in that town by a class of young men who have heretofore abstained from all other temperance organization. The new Society is called the 'Young Men's Washington Association.'

☞ The New Yorkers are dipping now pretty deep into real estate speculations. Those who have money are seeking real estate as an investment.

☞ Gen Redington democratic candidate has been elected Mayor of Augusta by a majority of 85 votes.

☞ Mrs Bryant of Portland, became the mother of two sons and a daughter last week. They are doing well.

Trial of Professor John W. Webster on the charge for the Murder of Dr. George Parkman.

THURSDAY AFTERNOON.

Mrs Hatch, sworn—I live at 45 Vine street, in Boston, knew Dr Parkman about 15 years; saw him on the 23d of November, in Cambridge street between North Russel and Blossom sts; I was going home; when I got into the house it wanted 10 or 12 minutes of 2, the Dr was going towards Court st; I fix the time by my husband's going on a journey to Vermont on the 23d of November, and by my sister's coming from the country; was induced to look at the clock to see how long I had been gone to the south end.

Cross examination—I didn't notice whether Dr Parkman turned around after I passed him; I mentioned the fact of having met the Dr after getting back to the house, I desired to make my sister laugh, and told her that I met "the chin;" that's the name by which we used to call the Dr; I was going down Blossom st, on the right hand side; I don't know whether he turned round after I passed him or not; I told you when I saw him and that's enough.

William V Thompson, called—I reside in East Cambridge; I was called on Sunday, the 25th of Nov, to go to Prof Webster's house; I went by request of officer Fuller; the object of the visit was to ascertain the date of the mortgage which he gave Dr Parkman, I called at the house, and was asked into Prof Webster's study by a young lady; the Prof looked into a trunk and remarked, "It is strange I cannot find the paper," he said "I can tell you another way," he then got a book and told me the date of a paper, and said, 'I suppose this is not the one you want,' I said, "I want to know the date of the mortgage on which you paid the money;" I then made a minute of the two papers and went to the City Register's office to see if the mortgage was discharged; I found it was not; the mortgage which he gave me was on personal property, and not on real estate; he told me that afternoon that he had been to Boston to inform Dr Francis Parkman that he (Dr W) was the man who made an appointment with Dr George Parkman on Friday morning, the 23d of Nov; he also stated that he stopped at the toll house, and asked the toll-man if he had seen Dr Parkman; the date of the first mortgage he gave me was the longest one; I noticed nothing peculiar at Dr W.'s house, except the fact which I have related, that he gave me the wrong mortgage; I know Dr Geo Parkman; I have seen him very frequently for the last five years, I last saw him on the 23d of Nov last, in Causeway st, I should think it was about 10 or 15 minutes past 2 o clock in the afternoon of that day; I was going towards Charlestown bridge, and he was going in the opposite direction; I should think it was a little below the middle of Causeway st, near a milliner's shop; I was walking down on the left hand side, and the Dr was heading towards Leverett st; I paid for the coat which I have on that day; I also made an examination of a title for a man on Commercial st that day, and went down to carry it, the man's clerk gave a receipt which I now have [illegible] was the first time for nine days that I had been in the city, I was over after this of Thanksgiving day I fixed the hour thus: I started from East Cambridge [illegible] 3 or 4 minutes of 1, the first place [illegible] at, was on the corner of [illegible] over [illegible] object was to leave some [illegible] it was then 23 or 2[illegible] past [illegible] I went thro' Leverett, Causeway [illegible] Dr Parkman's appearance; [illegible] and black [illegible] behind him [illegible] something [illegible] street; I [illegible] him on that [illegible] Boston, on [illegible] Sunday [illegible]

Samuel [illegible]

In Lynde st., [illegible] provision dealer, was acquainted with Dr George Parkman; knew him two years; saw him last on the 23d of November [illegible] Court street; saw him between half past [illegible] and half past three o'clock P. M; I fix the time thus; dined at one and came back and let my clerk go to dinner at two, waited until he came back, and then went down town; on my way down I saw the doctor; my shop is on the corner of Cambridge street; my young man was gone to dinner about half an hour; I was going to get my marketing for the next day; saw the doctor near the head of Sudbury street; he went into the middle of the street when he got opposite Mrs Kidder's shop and stopped all of a sudden; he had his hands behind him under his coat; know it was Friday, because it was very late on Saturday night after I shut up my market, that I went home and my wife told me that two men had been there after Dr Parkman; I remarked to her that I guessed he hadn't gone a great ways for I saw him only the afternoon before in Court street.

Cross-examination—I told a lady in the house that I saw Dr Parkman; I told a man by the name of Foster, who lives in Blossom street, the week after 'they' said 'they' had found his body; I think I am sure a Mr Russell was with me at the time; Mr Russell recollects seeing Dr Parkman, but don't recollect the day on which he was with me.

Samuel Cleland, called.—I reside at No 26 Sudbury street; am acquainted with Dr George Parkman; was a tenant of his several years; last saw him Friday, Nov. 23d, in Washington St., between Milk and Franklin St, between a quarter and half-past three o'clock; he was on the East side of the street, going towards Roxbury; I fix the time by the fact that I always called on the Rev George Wells, 18 Franklin street, at 3 o'clock, when I wanted to see him; was then coming from the Rev Mr Wells's house; know it was Friday, by two notes, dated on that day, which I received from two clergymen; a laboring man was walking near him, and, as I first supposed was walking with the Doctor, but I afterwards found the Doctor was alone; heard of the Doctor's disappearance on the following Monday morning.

Abby G Rhodes sworn.—I reside in Minot street, have known Dr George Parkman for about 25 years; saw him last on the afternoon of the 23d of November 1849 in Green street, on the corner of Lyman place, nearly opposite Emery Souther's Apothecary shop; it wanted about 15 minutes of 5 o'clock, a man was with him. they were going towards Bowdoin Square and was going to Chamber street, I was walking with my daughter; I know it was Friday because there was no other day that my daughter and myself went out together, we had been shopping together; my daughter was with me the whole of the way; we made purchases at Hovey's in Winter street, I paid for what I purchased, on Thursday afternoon I was at home, first saw a notice of Dr P's disappearance on Sunday morning; my daughter went into the country on Saturday; I bought 4 yards of muslin de laine for my daughter; dined between two and three o'clock on Friday; I did my shopping and on my way home saw Dr Parkman.

At 20 minutes past seven the Senior Counsel for the prisoner announced that the testimony for the defense was all in. The Court then adjourned to 9 o'clock Friday morning.

The following rebutting testimony was then introduced on the part of the Government:

Joseph Sanderson, called and sworn. I am one of the Police officers of Cambridge; I should think that I have known Dr. Webster for about 4 years. I saw Prof. Webster between Sunday and Thanksgiving, after the disappearance of Dr Parkman. I saw him get out of the last ne coach, in Harvard Square, in old Cambridge, in the vicinity of the colleges, where the omnibus stops. I should think it was between 11 and 12 o'clock at night; there was no one in company with him—none of his family—others got out. He passed me as he got out, and I turned round and followed him in the direction of his house; I do not recollect seeing him after he passed Graduate Hall. The hall from the place where the omnibus stops is not more than 4 or 5 rods. I think I may have followed him 15 rods to take the sidewalk. I am a watchman and was round there. I met Mr John Bryant directly after Dr Webster passed. Mr. B. is a watchman. I made an observation at the time that it was Dr Webster, and then some conversation ensued between us. Dr Webster might have touched me at the time he passed. I am certain it was between Sunday and Thanksgiving. I mentioned it on Saturday after the arrest. I am confident it was after 11 o'clock from the direction we took after I went home. I took a course I never take until after 11 o'clock, unless something special calls me that way. I cannot tell whether it was nearer Monday than Thursday.

[Mr. Clifford rose and stated that five persons had been summoned to prove that a person resembling Dr. Parkman was about the streets in Boston, at the time of his disappearance, and that he had been approached by different individuals, under the belief that he was Dr. P. The person was unknown to the government. The object in introducing the witnesses was to explain the testimony offered by the defence in relation to Dr Parkman's being seen on Friday, Nov. 23d, subsequent to the time at which the Government contends he was murdered by the defendant. The Attorney General did not know how far this course might be proper, and he therefore laid it before the Court for their direction.—Mr Merrick objected to the introduction of the evidence as contrary to universal practice. A brief discussion took place, when Shaw C J. decided that the evidence was inadmissible.]

George W. Fifield, called and sworn. My place of business is at the toll house on Craigie's Bridge. I recollect the time when the clock was put on the Court House in East Cambridge. It was put up last fall. So far as I know it has not kept accurate time. It frequently stops. Does not agree with the Lowell Railroad clock. It has been an inaccurate timepiece.

Cross examined. I refer to the clock on the Court House in East Cambridge. I have noticed a difference between that clock and other clocks—half an hour or quarter of an hour difference. It would be sometimes faster and sometimes slower than the railroad clock.

Samuel D. Fuller, called and sworn. My place of business at the toll house of West Boston Bridge, Cambridge side. I have observed the clock on the Court House; it was put up last Fall; it has not been an accurate timepiece all the time, it has stopped, and been faster and slower than my time.

Cross examined. I have known it to stop in snow storms. It has been five and ten minutes out of the way at times.

And here the government rested its case.

The Hon. Pliny Merrick made the closing argument for the Defense.

He alluded to the embarrassment under which he labored, in commencing his argument. He spoke of the case as transcending in importance and interest any one that had been for a long period before the Court for adjudication. Only a few months since an individual of the highest respectability was lost. The deepest sympathy of the whole community had been excited for his loss, and the utmost efforts had been used to ascertain what had become of him. Soon the astounding intelligence was announced that his mangled remains had been found, and that an individual had also been found who had been connected with the sudden and mysterious disappearance of Dr Parkman.

Then all the circumstances of the finding of the remains were spread before the community. The prisoner at the bar was incarcerated in our prison cells alone and unaided while all the dark and damning evidence was accumulating against him. No effort was made by him to arrest the course of events. He suffered all the evidence to spread far and wide without once offering an explanation of the events connected with the disappearance. He waited for the excitement to subside, that he might have an impartial trial by his country. He asked for no delay, but came for trial at the earliest possible time that could be named at the convenience of the Court. He well knew that a time would arrive when an impartial trial could be secured—when excitement would subside, and an impartial jury could be secured.

If all the circumstances known previous to the trial could produce no bias on the minds of the jury, then could the defence hope the evidence produced in a judicial form would be carefully and impartially considered by it.

The government charges that on November 23d Dr Parkman disappeared, and that the prisoner murdered him. The counsel explained the particulars of the charge made by the government. To establish the charge the government must prove the death of George Parkman, and that his death was caused by the agency of some person, that the prisoner at the bar was that agent and that he did it with malice aforethought. If any one of these facts fails, then the charge for murder fails, though a less crime may have been proved.

The Counsel then took up the evidence which the government had introduced. By indirect evidence, the government had attempted to show that Dr Parkman had never since been seen. The government has never attempted to show, that after the interview of a few moments on that day, the two parties ever met again.

The prisoner concedes that an interview took place between him and Dr Parkman on that day at 1½ o'clock, and that it lasted but a few moments. Beyond this the prisoner denies everything. If the government contends that the two men ever met again they must prove it.—It must be admitted that the government have introduced evidence to sustain their charges.—But the defence has produced evidence going to show that Dr Parkman did leave the building as Dr. Webster says he did, and was seen abroad in the community. The case fails for the government if the jury believes that the evidence for the defence is entitled to credence. If it is believed that the remains of Dr. Parkman were found in the College, then there is [illegible]

The witness explained how he had made a written statement to Mr Andrews clerk of the Coroner's inquest. The paper is not produced, and the defence therefore contends that there is nothing in it to invalidate the evidence of Mr Thompson—Men have strange systems of belief; but it does not follow from the adoption of such systems that they are insincere in their belief, or that they are not to be relied on in statements which they make—No attempt has been made to impeach the witness; no attempt has been made to prove that his powers of vision are impaired, and he himself swears they are not. If, then, Mr Thompson saw Dr Parkman in Causeway st, he saw him long after the time at which the government contends Dr Parkman held his last interview in the Medical College. Mr Wentworth testifies he saw Dr Parkman in Court st on Friday afternoon, between 2½ and 3½ P. M.—He gives all the particulars which fix the time and event in his memory. Mr Russell testifies that he was with Mr Wentworth when he spoke of having seen Dr Parkman. But Mr Russell does not recollect the time when Mr Wentworth told him this. He has a most extraordinary memory—he cannot fix the time within months. The matter was so unimportant that the time was not fixed in his memory. He recollects that mention was made of it by Mr Wentworth. But Mr Wentworth recollects the time—has recollected it ever since—His testimony is unimpeached and impeachable.

Mr Cleland testified to important matters; The business upon which he was engaged is of such a character as to entitle him to confidence. He produces sundry notes to fortify his recollection of matters, to which he testifies. He testifies that at an hour which could not vary much from 20 minutes after 3 P. M, he saw Dr Parkman in Washington st. He declares that Dr Parkman and he passed side by side. Of the time and place there can be no question. It was on Friday, the 23d of Nov, at 20 minutes past 3 o'clock, in Washington st. Mr Cleland knew Dr Parkman perfectly well, and he mentions the circumstance to an officer of the police, and is told that it is of no consequence to mention it to the police.

Then there is the testimony of Mrs and Miss Rhodes. They testified to going out shopping on Friday, November 23d. Mrs Rhodes testifies to the purchase which she made at Hovey & Co's, in Winter street. A clerk in Hovey & Co's prove that a sale, of, precisely the same amount as testified to by Mrs Rhodes, was made on that day.

It is not contended that Mrs and Miss Rhodes were not in Winter street on that day. Mrs Rhodes knew Dr Parkman, and bowed to him as she passed him in Green street. She knew perfectly the whole family, and was a parishioner of the Rev Dr Francis Parkman. Miss Rhodes testifies that her mother bowed to Dr. Parkman at the time and place in which she testifies. She has taken every effort in her power to be correct as to time and place.

Mrs Greenough testifies that she saw Dr Parkman in Cambridge street, at 19 minutes before 3 P M. She is confident; though perhaps not quite as certain at some other witnesses.

This is the evidence upon which the defence relies to show that Dr Parkman and Dr Webster did separate on Friday at 1½ or 2 P. M.—We know that responsible persons did see Dr. Parkman abroad after the hour fixed by the government. It may be suggested that they are mistaken. But is this beyound a doubt?—Can the life of a fellow man be put in jeopardy upon such suggestion? It may be claimed that witnesses were mistaken in the face—in the living man. But compare this with the evidence as to the identity of the naked limbs!

The counsel next proceeded to an examination of the testimony introduced by the government. The honorable gentleman declared that he would treat it in all fairness; the parties were not there to contend for victory, but to learn truth and to vindicate justice. The counsel took up the evidence as presented by government. The prosecution was bound to prove the murder, as the law presumes that the defendant is innocent until the murder is so proved; and more, the proof must be beyond a reasonable doubt. They must first prove the death and secondly, prove that it was the result of the agency of another person. It must be admitted that considerable evidence has been introduced to show that Dr Parkman is no more.

It is conceded that Dr Parkman entered the Medical College on Friday, Nov 23d. Bones and remains were found in the College. Dr Wyman testifies that he found parts of a head, arms, left leg and feet. The question arises were these the remains of Dr Parkman? Important circumstances were introduced to show the strong probability that the remains belonged to Dr Parkman. The Council reviewed the circumstances—as the size of the remains, the color of the hair, and the finding of mineral teeth, to which a skillful dentist testifies. It the jury are not satisfied that the remains were those of Dr Parkman, then the case fails. But it it were proved that the remains were those of Dr Parkman, then the Jury must decide whether the person came to his death by violence.

Dr Wyman thinks that a portion of the bones of the skull were fractured before calcination. But of this he was not entirely certain. Dr. Holmes testifies that he is of the opinion that the same appearance might be presented if a bone was fractured after calcination. He states that he has tried the experiments and knows.—In this particular Dr Holmes does not defer his opinion to that of Dr Wyman. Take the testimony of the two together and there must be doubt upon this point. Is it proved that there was a blow upon the head?

Now as to the cut in the breast. Several respectable gentlemen testify that the cut was not a clean one, but it was ragged. Three witnesses testify that whenever the stab was made it was not done with a sharp knife. One witness (Dr Strong) testifies that the cut was a clean one. Here again there is doubt—discrepancy in testimony. Is it clear that life was lost by a stab?

The parts are divided. Though this body is found mutilated, distressingly mutilated, there is not one who believes that this mutilation was the cause of death. How the man died is still a matter of mystery and doubt.

Is it necessary, because the remains are found that a violent death took place? A man is seen to run from a house with a bloody sword. Persons enter and find a bleeding corpse. The man was missing on the 23d, but the remains were not found until the 30th, seven days after. Can it be said that Dr Parkman did not die a natural death, in some of the many forms in which death comes upon us?

Can it be certain, under such circumstances, that a violent death took place—that Dr George Parkman died by the hand of a fellow-man? Lord Hale said he would not recommend a conviction, under circumstantial evidence, except a body had been found. The same caution must be applied to the means of death. And if there is left doubt of the means, then a violent cannot be assumed.

Dr. Webster does not pretend to say how the remains came in the Medical college. Some one may have placed the remains in the College after suspicion had fallen upon the College. Can it be said that is not so?

Suppose we arrive at the conclusion that those were the remains of Dr. Parkman, and that he came to his death by violence, what is the crime committed? Dr. Webster denies that he took the life of Dr. Parkman.

But his counsel cannot rest the case. They do not feel it right so to do. We contend that the evidence shows that if a homicide was committed by Dr. Webster, it was done under such circumstances of extenuation as to reduce the crime from murder to manslaughter. The Court will instruct as to law bearing upon the question of malice aforethought.

[Some remarks were addressed by Mr. Merrick to the Court, upon its ruling in the case of Peter Yorke, by which Judge Shaw replied.]

If the jury is satisfied that Dr. Webster killed Dr Parkman, and did it by design, then the homicide, by the law, becomes murder; but if it was not done by design, but with provocation or in the heat of combat, then homicide is only manslaughter. The government contends that there was express malice—that Dr. Webster enticed Dr. Parkman into the College, and then murdered him.

The government denies that a business interview took place, as Dr. Webster has admitted—denies that he paid the money to Dr. Parkman, as he says he did, because he had not the money about him—therefore the government concludes that the visit of Dr. Parkman was in consequence of the enticement of Dr. Webster. As to the evidence of Mr. Pettee and Mr. Dana, relation to Dr. Webster's cash accounts, the counsel were authorized to say that this was not the money which Dr. Webster was to pay to Dr. Parkman.

It is true that he drew a small check on the Mr. Henchman. But the money he deposited in the Bank.—the money he obtained from Mr. Henchman,—were only for his every day use. a dark mystery which cannot be fathomed.

If the parties separated and although the remains of George Parkman were found beneath the College, then there is no proof to connect the defendant at the bar with his death. Did the parties separate? The defence contends that highly respectable individuals have proved, that the parties did separate a little after the hour named in the government's charges. Mrs Hatch testifies that she saw Dr. Parkman at ¼ to 2 P. M.

The government contends that he was seen 10 minutes to 2 P. M. in the vicinity of the Medical College. Mr Thompson testifies that 20 minutes after 1 P. M. he met Dr Parkman in Causeway st. Mr Thompson testifies that he knew Dr Parkman perfectly well.

No attempt has been made to show where the money came from to pay Dr. Parkman, for this is utterly imposible. But the government have no right to contend that malice is expressed from this circumstance.

It is well known to all that business arrangements had taken place between Dr. Parkman and Dr. Webster. The counsel have gone into the details of the mortgages, the bill of sale of the cabinet, &c., Dr. Webster well knew that the claim of Dr. Parkman must be justified—the time was near at hands, and Dr. Webster was saving up the money to meet the claim. Of the $195 paid to Dr. Webster by Mr. Pettee, and deposited in the Charles River about the middle of November. Dr. Webster only checked out $150—leaving $10 for Dr. Parkman's claim.

It is true that Dr. Webster did not desire to pay the money as speedily as he might—there were no friendly relations between the parties. But still he was saving up the sum necessary to discharge the claim, and was expecting the day when such discharge would take place, and he would be free from his creditor.

The counsel passed in review the statement that Dr Webster had paid the $480 to Dr. P., and contended that the Evidence as produced by the Government went to sustain the declaration of Dr Webster. The other business transactions were gone over.

All the considerations which were advanced, the Counsel contended were sufficient to repel the suggestion of the government, that Dr W. enticed Dr Parkman, there for the purpose of committing a diabolical murder.

He was of the opinion that the inference that a business visit took place was more likely than that Dr Webster enticed Dr Parkman to the College for the express purpose of murdering him.

At this point, at 10 minutes before 2 P. M., the Court adjourned to 3½ P. M.

AFTERNOON.

Judge Merrick resumed. If the prisoner had killed Dr P. it must have been on great provocation; Dr P. had become excited and pursued Dr. W. with a bad feeling, and used expressions respecting him peculiarly aggravating. Then there was the menace of Dr Parkman, the evening before the fatal 23d, when he left the house saying "something would have to be done to-morrow;" every act and preliminary went to constitute provocation of a high degree. That same week Dr Parkman hunted Cambridge, enquiring for Dr Webster several times, and one day went to his house in an excited state. Next day they met under this feeling. It would not be strange that a wrangle ensued, nor that the debtor thus pursued should meet his creditor in personal collision. Passion has its sway; it was natural that men, under such feelings, should fall into altercation, have blows, and death ensue. It was very natural that word for word, and blow for blow, would be given; but that Professor Webster made a cold, calculating, deliberate scheme to seduce and destroy Dr Parkman, could not be considered, in imagination, for one moment. Supposing, then, it were admitted that the deceased came to his death by means of the prisoner, the jury could not attach deliberation to an impulsive crime.

It might be said that one who committed a crime in passion would have confessed it, and depended on the representation of such facts as he might state for mitigation of his error.—Before the propriety of this step could be taken into consideration (to carry the supposition further) the time had passed after which such confession would serve that purpose. The first false step of concealment had been taken, and there was no recalling it. The sending of the letters he must have been driven to adopt, not to conceal itself—but the first indiscretion of concealment.

He viewed the terms of the indictment: contended that Government were bound to define the manner of death; that no one of the counts was proved in every detail; and that the aggregate of proof did not establish the general charge. A reasonable doubt was left, and the accused had a right to the benefit of this.

The Government charged Doctor Webster with killing Dr. Parkman. This the defendant denied, and did not profess to explain.—The evidence of the government, however seeming or special it might appear, could not establish the affirmative. These were the grounds on which the defence rested.

The counsel stated his disbelief of the anonymous letters being in Dr W.'s handwriting—the jury should compare them and judge for themselves.

The tin box, the fish hooks, and the tan, he contended might be explained by prisoner, and their fitting the locks on the college doors was a matter of chance. The request for blood, and the inquries about the vault, proved nothing.

The government had proved an *alibi*—the meeting was fixed at half past one—Dr P. was very punctual, it was not probable he would be tardy; but the government witnesses testified to seeing him at a few minutes before two—he had then probably done his business with Prof. W. and left him—and must have gone to the College, or toward it a second time.

The knife in the tea-chest, the twine round the remains, and many other circumstances, might have been contrived by some one, with the design of throwing suspicion on Dr W.—No scrap of clothing was found—did not that favor the supposition that the murder was done elsewhere, and the naked body brought to the College, and so disposed of as to throw suspicion on the accused. He commented with some severity on Littlefield's testimony—he was backward about searching until the reward was offered for the discovery of the body, and then suddenly became very active. He took care to be alone when he found the remains. These were strange facts—it was for the jury to judge whether they did not describe his testimony.

The improbability of such a deed having been committed, and no blood found, was dwelt on, also that a skilful chemist, with means at hand to destroy a body in a few hours, would have hacked it to pieces, and concealed the pieces where these had been found.

The conduct of the accused in his intercourse with society, was urged, as inconsistent with having committed such a deed; and his agitation on being accused of the murder, as no greater than might naturally be expected from any one in similar circumstances.

The following morning, after he had become more calm, he exclaimed, as we are told, 'It cannot be that these remains are those of Dr. Parkman; how came they there? I am sure I cannot tell!'

He now comes to you, gentlemen, with testimonials of his character, from the President of the University to the mechanic at his bench.—The testimonials are wholly inconsistent with the charges brought against him as a man of violence.

Mr Merrick's peroration was brilliant. The "quality of mercy" has seldom met with a more eloquent appeal to its saving power. The argument occupied six hours and a half, and was listened to with profound attention. At its close, the Court adjourned.

WHIG AND COURIER.

Prof. Webster Convicted of Murder by the Jury.

Boston, April 1.

The Jury retired at 8 o'clock Saturday evening to consider their verdict. Near 11 o'cl'k they returned to their seats and the Court came in immediately. By their foreman they returned a verdict of guilty and the prisoner was removed to jail to await his sentence. The Court then adjourned to 9 o'clock this morning. The April term of the Municipal Court will commence to-day. The April term of the Court of Common Pleas for the County of Suffolk will commence to-morrow morning.

☞ We learn that a despatch has been received in this city by Hodgman & Co's Express stating that news has been received in Boston of the death of Hon. John C. Calhoun, and also the conviction of Prof. Webster.

You Ask Me How I Live.

Living friendly, feeling friendly,
Acting fairly to all men,
Seeking to do that to others
They may do to me again;
Hating no man, scorning no man,
Wronging none by word or deed,
But forbearing, soothing, serving,
Thus I live—and this my creed.

Harsh condemning, fierce contemning,
Is of little Christian use;
One soft word of kindly meaning,
Is worth a torrent of abuse.
Calling things bad, calling men bad,
Adds but darkness to their night;
If thou would'st improve a brother,
Let thy goodness be his light,

I have felt and known how bitter
Human coldness makes the world,
Every bosom round me frozen,
Not an eye with pity pearled;
Still my heart with kindness teemeth,
Glad when other hearts are glad,
And my eye a tear-drop findeth
At the sight of others sad.

Ah! be kind—life hath no secret
For our happiness like this;
Kindly hearts are seldom sad ones,
Blessing ever bringeth bliss,
Lend a helping hand to others,
Smile though all the world should frown;
Man is man, we all are brothers,
Black or white, or red or brown.

Man is man through all gradations,
Little recks it where he stands,
How divided into nations,
Scattered over many lands;
Man is man by form and feature,
Man by vice and virtue too,
Man in all—one common nature
Speaks and binds us brothers true.

NOTICE.

THE regular meeting of Cynosure Division S. of T. No. 4, has been changed, permanently, from Friday to Monday evening of each week. Brethren are requested to take notice and govern themselves accordingly.
E. H. DAY, R. Sec.
Bangor, March 30, 1850. 1w

C. P. FESSENDEN'S WRITING ACADEMY open day and evening, at No 74 Main Street. Mr. Fessenden, thankful for the flattering patronage bestowed upon him (and having located himself permanently in this city, as a teacher of penmanship) would solicit a continuation of the patronage of all those who wish to acquire an easy rapid and graceful system of writing, fitted for the counting room, or for ladies in epistolary correspondence. Those wishing to fit themselves to teach, will be fitted upon reasonable terms.
Cards marked to order with neatness and despatch
Terms for 12 Lessons,—Gentlemen, $1,50. Ladies 1,00. Payment in advance 4m mar 12

'TIS STRANGE, BUT TRUE!

That many will neglect a Cough month after month and then wonder at last they have CONSUMPTION.—How much wiser to nip this disease in the bud, which can always be done by using Dr A Rogers' Syrup of LIVERWORT, TAR, and CANCHALAGUA. "A stitch in time saves nine."
☞ See long advertisement in another column.
mh 27 3tawd&w1m

CURE FOR WHOOPING COUGH.

At this season of the year, when Whooping Cough is prevalent, every family should be provided with a bottle of DOWN'S ELIXER—which is the surest remedy known for that distressing complaint!

It loosens the Cough, promotes expectoration, soothes the irritated organs of the Lungs and Throat, saves hours of hard coughing, and restores the patient to health in much less time than any other known remedy.

Down's Elixer is also the most effectual known remedy for every species of Cough and Lung Complaint.—[See advertisement in another column.]

Sold by Druggists and dealers in medicine throughout the country. mch4 d&w6w

Caution to the Public.

Beware of Humbugs and Quacks!

THE HUMAN EYE is too delicate an organ to be trifled with; notwithstanding this, there are Quacks in our community, unprincipled enough, that of course know nothing of the Science of Optics, and will for mere paltry gain, buy, sell, and *puff up* an inferior article of SPECTACLES that cost half price! The lenses, in particular, being so untrue and imperfect as to ruin the sight entirely if persisted in for any length of time.

The subscriber having served a regular apprenticeship with Mr. D B WIDDIFIELD, Optician, of Boston, and with 17 years practice in manufacturing and fitting lenses for all defects of the eye, within the reach of Optical assistance he trusts he will be enabled to give satisfaction in this department, to all who favor him with a call.

—"The fair Nereides
They came on shore, and stay as they fell
Covered each tear into an oyster shell."
So sang the author of Brita as Pastorals, and no wonder that Pliny wrote praisingly of this delicious delicacy of the palate which titilates with so exquisite a sensation and causes the limpid saliva to flow in a Niagara of delight. How large and sweet and pleasant and tender and white are the OYSTERS found at GEORGE FARRINGTON'S famous SALOON
A Dutchman calls for his Æster, and GEORGE serves him in a twinkling.
A German steps into a curtained alcove and asks for his Auster, and a bowl of the white soup is placed before him.
The Swiss calls for Ostrh, and the glistening dish is provided.
The Frenchman seats himself in Alcove No 76 and orders Huitre, and smiling GEORGE furnishes a variety which makes the Frenchman's stomach have a holiday of delight.
A dark Spaniard demands his favorite Ostia which FARRINGTON'S attendants immediately place before him.
The Italian, panting with expectation throws off his little hat, seats himself in the richest alcove he discovers unoccupied and calls upon FARRINGTON for Ostria which GEORGE nothing loth, places before him in the raw, the roast, the soup, the fried, the fricassee, and other shapes, which his skill has discovered.
The Yankee take his comfortable seat and orders his Oysters—four plates and six cups of Coffee! His order is answered for the Proprietor is everlastingly on his feet.
Such is a brief picture of the famous Establishment of GEORGE FARRINGTON,—the great emporium of the Eastern country—where OYSTERS of most excellent quality and deliciously cooked and seasoned, may be obtained in any quantity.
Remember the place at the East end of Kenduskeag Bridge, just two doors from John Low's iron sided, weather beaten, solid and invincible City Market where if the gentlemanly Proprietor is not himself present Simon Sidelinger will be found with all the fat and fair slices.

Knight & Streeter's Academy.

THE first Spring Term for Juveniles (new beginners) will commence on WEDNESDAY, March 27th. Should a Class of old Scholars present themselves, the 'Waltz Quadrilles' and Mazurkas will be taught. These, it is well known are difficult of execution, and can only be learned by those who have had a great deal of practice—All who intend joining, must be there at 2 P M, on the day above named

IMPORTANT
TO OWNERS OF HORSES AND CATTLE

DILLOW'S CELEBRATED HEAVE CURE AND UNIVERSAL CONDITION MEDICINE, is universally admitted to be a sure specific in the following diseases in HORSES and CATTLE *In Horses*—Heaves, Coughs, Colds, Glanders, Horse Distemper, Hide Bound, Worms Botts, Scurvy and Scab, *In Cattle*—Botts, Staggers, Loss of Cud, Horn Distemper, Black Tongue, Colds Coughs, &c On trial these powders will be found to be the best renovating and tonic extant for all herbiverous animals, as they operate directly (*in smaller doses*) upon the secretive glands and humors of the blood, and when horses and cattle are dull and stupid, and while the hair presents a rough and staring appearance, or while they are changing their coat—at such times a few doses will be found indispensably necessary to bring them into proper condition
☞Give the article a trial, and it will recommend itself

DILLOW'S GREEN OINTMENT,
For Founder Scratches, Mange or Scab, Diseases of the Feet, Saddle and Harness Galls, Swelled Legs and Grease, and for all cases where a healing ointment is needed
To the Farmer Dairyman, Wool Grower and Groom this Ointment is an indispensable article—in proof of which numerous certificates of its efficacy could be given but it is not necessary, as it will stand entirely on its own merits
☞For certificates and particulars, see circulars left with agents

THE VEGETABLE PULMONARY BALSAM
the Most Highly Approved and Popular Standard Medicine now in General Use for
COUGHS COLDS AND CONSUMPTIONS *Asthma Pleurisy, Phthisic, Spitting of Blood, Hooping Cough, Bronchitis*, and all Pulmonary Affections and Diseases of the Lungs and Chest.

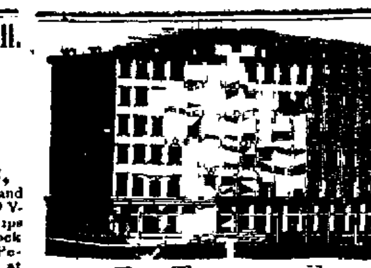

It is thus spoken of by eminent Physicians One says—"For the above complaints it is superior to any other preparation used." Another—"It has been used with *wonderful* success, and has a superiority over every kind of medicine used." Another "I can with *confidence* recommend it" Another—"It has been used with complete success, and I am *satisfied* that it is a *valuable medicine*" Another—"It is a *safe, convenient*, and very *efficacious* medicine"—Another—"It has never, to my knowledge, disappointed the reasonable expectations of those who have used it." Another—"It is equal if not superior to any other medicine within my knowledge."
Extract from a letter dated Dayton, Ill, April 17, 1849—"It was first introduced into my family by a celebrated Physician, some ten years ago, and such was the benefit my wife derived from it that we have not been without it in our house since. I have also recommended it to at least fifty different persons since, for Affections of the Lungs, and I do not know of a *single* case in which it did not give *immediate* relief, and some were cured after being given up by their Physicians"
☞BEWARE OF COUNTERFEITS AND IMITATIONS, such as CARTER'S COMPOUND PULMONARY BALSAM, AMERICAN PULMONARY BALSAM, and others, to suit, bearing the name! Enquire for the article by its whole name the
"VEGETABLE PULMONARY BALSAM," and see that it has the written signature of WM. JOHN CUTLER upon a yellow label on the blue wrappers. Each bottle and seal is stamped "Vegetable Pulmonary Balsam."
Prepared by REED & CUTLER, Importers and Wholesale Dealers in Medicines, Paints, Chemicals, and Dye Stuffs, 33 India Street, Boston, and sold by Druggists, Apothecaries, and Country Merchants generally. For particulars and recommendations see a Pamphlet accompanying each bottle. Price 50 cents.

PATENTS.
American and Foreign Office.
AGENCY FOR BUSINESS
With U. S. Patent Office
WASHINGTON
NO. 22 STATE STREET, BOSTON.
IN 1840 the subscriber was appointed by the Commissioner of Patents, Agent of the U S Patent Office, in accordance with the 40th Sec. of Act of '37
Having relinquished the Agency for the transmission of Models, and adopted a more expeditious mode of sending them to the Patent Office *where by a Patent may be procured about six weeks earlier*, he continues to forward them free of expense—to prepare Caveats, Specifications, Assignments, and all the necessary Papers and Drawings for Patents, and to render advice on legal and scientific matters respecting the same Patents secured in Europe and other countries
By application at this office, inventors are saved the time and expense of a journey to Washington and delay there, as well as all personal trouble in obtaining their patents They also have the advantage of *verbally* explaining their inventions, and of consulting in respect to them, *matters, in general, of paramount importance in order to obtain correct specifications and claims* The experience of sixteen years practice, an extensive collection of rare works decisions &c on mechanical subjects the Patent Laws, and patents of different countries, collected at much expense during the long time this office has been established, together with accounts here kept of inventions patented at Washington, enable the subscriber to afford to inventors desirous of procuring Patents, assistance and information which in other respects might be difficult of attainment
R. H. EDDY, Solicitor of Patents.

WASHINGTON, JULY 21, 1849.—During the time I occupied the Office of Commissioner of Patents R H EDDY, Esq , of Boston, did business at the Patent Office as Solicitor for procuring Patents There were few, if any, persons acting in that capacity who had so much business before the Patent Office , and there were none who conducted it with more skill, fidelity and success I regard Mr Eddy as one of the best informed and most skillful Patent Solicitors in the United States, and have no hesitation in assuring Inventors that they cannot employ a person more competent and trustworthy, and more capable of putting their applications in a form to secure for them an early and favorable consideration at the Patent Office. EDMUND BURKE
Late Commissioner of Patents

Dr. Townsend's
COMPOUND EXTRACT OF
SARSAPARILLA,
Wonder and Blessing of the Age.
THE MOST EXTRAORDINARY MEDICINE IN THE WORLD.
This Extract is put up in Quart Bottles—it is six times cheaper pleasanter, and warranted superior to any sold. It cures without vomiting, purging, sickening, or debilitating the Patient.

The great beauty and superiority of this Sarsaparilla over all other medicine is, while it eradicates disease it invigorates the body. It is one of the very best
SPRING AND SUMMER MEDICINES
ever known. it not only purifies the whole system and strengthens the person, but it *creates new, pure and rich blood*, a power possessed by no other medicine. And in this lies the grand secret of its wonderful success — It has performed within the last five years, more than 100,000 cures of severe cases of disease at least 15,000 were considered incurable It has saved the lives of more than 5,000 children during the two past seasons
10,000 *CASES OF GENERAL DEBILITY AND WANT OF NERVOUS ENERGY.*
Dr Townsend's Sarsaparilla invigorates the whole system permanently. To those who have lost their muscular energy by the effect of medicine or indiscretion committed in youth, or the excessive indulgence of the passions, and brought on a general physical prostration of the nervous system, lassitude, want of ambition, fainting sensations, premature decay and decline hastening toward that fatal disease, Consumption, can be entirely restored by this pleasant remedy. This Sarsaparilla is far superior to any
INVIGORATING CORDIAL,
As it renews and invigorates the system, gives activity to the limbs, and strength to the muscular system, in a most extraordinary degree.
CONSUMPTION CURED.
Cleanse and Strengthen Consumption can be cured Bronchitis, Consumption, Liver Complaint, Colds, Catarrh, Coughs, Asthma, Spitting of Blood, Soreness in the Chest, Hectic Flush, Night Sweats, Difficult or profuse expectoration, Pain in the Side, &c., have been and can be cured.
SPITTING BLOOD.
New York, April 28 1847.
Dr TOWNSEND—I verily believe that your Sarsaparilla has been the means, through Providence, of saving my life I have for several years had a bad cough. It became worse and worse At last I raised large quantities of blood, had night sweats, and was greatly debilitated and reduced, and did not expect to live — I have only used your Sarsaparilla a short time, and there has a wonderful change been wrought in me. I am able to walk all over the city. I raise no blood, and my cough has left me You can well imagine that I am thankful for these results.
Your obedient servant,
WM RUSSELL, 65 Catharine st.
RHEUMATISM.
This is only one of more than four thousand cases of Rheumatism that Dr. Townsend's Sarsaparilla has cured The most severe and chronic cases are weekly eradicated by its extraordinary virtues.
James Cummings, Esq , one of the assistants in the Lunatic Asylum, Blackwell's Island, is the gentleman spoken of in the following letter
Blackwell's Island, Sept 14, 1847.
Dr Townsend—Dear Sir I have suffered terribly for nine years with the Rheumatism, considerable of the time I could not eat, sleep or walk I had the most distressing pains, and my limbs were terribly swollen I have used four bottles of your Sarsaparilla, and they have done me more than one thousand dollars worth of good. I am so much better—indeed I am entirely relieved. You are at liberty to use this for the benefit of the afflicted. Yours, respectfully, JAMES CUMMINGS
FITS! FITS! FITS!
Dr Townsend not having tested his Sarsaparilla in cases of Fits, of course never recommended it, and was surprised to receive the following from an intelligent and respectable Farmer in Westchester County
Fordham, August 13, 1847.
Dr Townsend—Dear Sir: I have a little girl, seven years of age, who has been several years afflicted with Fits: we tried almost every thing for her, but without success, at last, although we could find no recommendation in your circulars for cases like hers, we thought, as she was in a very delicate health, we would give her some of your Sarsaparilla, and are very glad we did, for it not only restored her strength, but she has had no return of the Fits, to our great pleasure and surprise She is fast becoming rugged and hearty, for which we feel grateful. Yours, respectfully, JOHN BUTLER, Jr.
FEMALE MEDICINE.
Dr. Townsend's Sarsaparilla is a sovereign and speedy cure for Incipient Consumption, Barrenness, Prolapsus Uteri or Falling of the Womb, Costiveness, Piles, Leucorrhœa or Whites, obstructed or difficult Menstruation, Incontinence of Urine or involuntary discharge thereof, and for the general prostration of the system—no matter whether the result of inherent cause or causes, produced by irregularity, illness, or accident Nothing can be more surprising than its invigorating effects on the human frame Persons all weakness and lassitude, from taking it, at once become robust and full of energy under its influence It immediately counteracts the nervelessness of the female frame, which is the great cause of Barrenness — It will not be expected of us in cases of so delicate a nature, to exhibit certificates of cures performed, but we can assure the afflicted, that hundreds of cases have been reported to us Thousands of cases where families have been without children after using a few bottles of this invaluable medicine, have been blessed with fine, healthy offspring
TO MOTHERS AND MARRIED LADIES
This Extract of Sarsaparilla has been expressly prepared in reference to female complaints No female who has reason to suppose she is approaching that critical period, "*The turn of life*," should neglect to take it, as it is a certain preventative for any of the numerous and horrible diseases to which females are subject at this time of life. This period *may be delayed for several years by using this medicine.* Nor is it less valuable for those who are approaching womanhood as it is calculated to assist nature by quickening the blood and invigorating the system. Indeed this medicine is invaluable for all the delicate diseases to which women are subject.
It braces the whole system, renews permanently the natural energies—by removing the impurities of the body, not so far stimulating as to produce subsequent relaxation—which is the case of most medicines taken for female weakness and disease By using a few bottles of this medicine, many severe and painful surgical operations may be prevented
GREAT BLESSING TO MOTHERS AND CHILDREN
It is the safest and most effectual medicine for purifying the system, and relieving the sufferings attendant upon child birth ever discovered It strengthens both the mother and child, prevents pain and disease, increases and enriches the food—those who have used it think it is indispensable It is highly useful both before and after confinement, as it prevents diseases attendant upon childbirth—in Costiveness Cramps, Swelling of the Feet, Despondency, Heartburn, Vomiting, Pain in the Back and Loins, False Pains, Hemorrhage, and in regulating the secretions and equalizing the circulation it has no equal. The great beauty of this medicine is, it is always safe, and the most delicate use it most successfully, very few cases require any other medicine—in some a little Castor Oil or Magnesia is useful. Exercise in the open air, and light food with this medicine, will always ensure a safe and easy confinement
BEAUTY AND HEALTH
Cosmetics, Chalk, and a variety of preparations generally in use, when applied to the face, very soon spoil it of its beauty. They close the pores of the skin, and check the circulation, which, when nature is not thwarted by disease or powder, or the skin inflamed by the alkalies used in soaps, beautifies its own production in the "human face divine," as well as in the garden of rich and delicately tinted and variegated flowers. A free, active and healthy circulation of the fluids or the coursing of the pure, rich blood to the extremities is that which paints the countenance in the most exquisite beauty It is that which imparts the indescribable shades and flashes of loveliness that all admire but none can describe. This beauty is the offspring of *nature*—not of *powder* or *soap* If there is not a free and healthy circulation, there is no beauty If the lady is fair as driven snow, if she paint and use cosmetics, and the blood is thick, cold, and impure, she is not beautiful. If she be brown or yellow, and there is pure and active blood, it gives a rich bloom to the cheeks, and a brilliancy to their eyes, that is fascinating.
This is the reason why the southern, and especially the Spanish ladies, are so much admired. Ladies in the north who take but little exercise or are confined in close rooms, or have spoiled their complexion by the application of deleterious mixtures, if they wish to regain elasticity of step, buoyant spirits, sparkling eyes, and beautiful complexions, they should use Dr. Townsend's Sarsaparilla Thousands who have tried it, are more than satisfied, are delighted Ladies of every station crowd our office daily
NOTICE TO THE LADIES.
Those that imitate Dr. Townsend's Sarsaparilla have invariably called their stuff *a great remedy for females, &c., &c* , and have copied our bills and circulars which relate to the complaints of women word for word—other men who put up medicine have since the great success of Dr Townsend's Sarsaparilla in complaints incident to females, recommended theirs although previously they did not A number of these Mixtures, Pills, &c are injurious to females as they aggravate disease and undermine the constitution
SCROFULA CURED
This Certificate conclusively proves that this Sarsaparilla has perfect control over the most obstinate diseases of the blood ... unprecedented
THREE CHILDREN.
Dr Townsend. Dear Sir—I have the pleasure to inform you that three of my children have been cured of the scrofula by the use of your excellent medicine.— They were afflicted very severely with bad sores; have taken only four bottles, it took them away, for which I feel myself under great obligation. Yours respectfully,
ISAAC W. CRAIN, 106 Wooster-st.
OPINIONS OF PHYSICIANS.
Dr Townsend is almost daily receiving orders from physicians in different parts of the Union.
This is to certify that we, the undersigned, Physicians of the City of Albany, have in numerous cases prescribed Dr Townsend's Sarsaparilla, and believe it to be one of the most valuable preparations of the Sarsaparilla in the market.
H P PULING, M D., J. WILSON, M D., R. B. BRIGGS, M D., P. E. ELMENDORF, M D.
Albany, April 1, 1846.
CAUTION.
Owing to the great success and immense sale of Dr Townsend's Sarsaparilla, a number of men who were formerly our Agents, have commenced making Sarsaparilla Extracts, Elixirs, Bitters, Extracts of Yellow Dock, &c. They generally put it up in the same shaped bottles, and some of them have stole and copied our advertisements,—they are worthless imitations, and should be avoided.

White's Hair Restorative:
A PURELY VEGETABLE COMPOUND,
For Restoring, Beautifying Cleansing, Softening, and Dressing THE HAIR

THIS elegant preparation is fast taking the place of all other articles in use, for restoring and dressing the Hair. It prevents the Hair from falling off, promotes its growth, removes dandruff, and restores the natural and luxuriant growth of the Hair in all cases of baldness It also removes pain and heat in the head, and is a sovereign remedy for all diseases of the scalp It gives the Hair a brilliant, glossy lustre, a silken texture, and a healthy, vigorous appearance, No Lady's toilet can be complete without this indispensable article.
RECOMMENDATION
[Certificate of Dr. PERRY, Portsmouth, N H]
PORTSMOUTH, Sept 29, 1849
Mr J P. Morse, Agent for "White's Hair Restorative":
Dear Sir—I deem it my duty to state some facts respecting the inestimable value of White's Hair Restorative Several years ago after a severe fit of sickness, my wife lost all of her hair, the scalp appeared, and, the hair grew out brush, and uneven About a year ago, by another fit of sickness, she lost all her hair a second time, and for a long time there was apparently no action in the scalp After various applications I was induced to try the above mentioned Restorative, and now after the use of a few bottles her hair has grown out as thick, as lustrous, and is as beautiful a color as ever. Furthermore, for a long time I have been afflicted with neuralgic and other pains in my head, and I have found it the best external remedy I have ever tried, I can therefore cheerfully recommend it to all who are afflicted as above, as the best article I have ever seen.
Most respectfully yours, &c ,
A. PERRY, M. D.
Manufactured by E WHITE, Lowell, Mass

Another Life Saved.
Read the following letter from a Clergyman of Camden, Me , to the Editor of the GOSPEL BANNER —
DOWN'S ELIXIR,—A CURE.
BR DREW—being anxious to do good to my fellow beings, as I have means and opportunity, I wish to state, through the Banner, that in my sickness last winter and spring I received very great benefit from the use of N. H. DOWN'S ELIXIR.
I had been troubled some weeks with a severe cold which so affected the vocal organs, that it was with great difficulty I discharged the duties of my office. My cold continued until I was completely prostrated by bleeding, which created a dry, hard cough. My appetite failed, my strength wasted, and my flesh disappeared Seeing Wistar's Balsam of Wild Cherry recommended in the Banner, I procured a bottle and commenced taking it and continued its use until I had taken three bottles when I became satisfied that it contained opium, making a large amount of physic necessary, and, also contracting the very organs that should be relaxed I used other kinds of patent medicines, but with no good effect. several weeks I continued gradually to sink under my disease at the expiration of which time, I was extremely weak, my skin dry and husky, and my feet and hands cold most of the time I had a dull, heavy pain between my shoulders, and a distressing pain in the pit of my stomach My tongue was coated with a thick, white fur, bowels very irregular and costive, a dull fever, night sweats, dry, hard cough, difficulty breathing, and low spirits My stomach at this time was so sore and weak, that it was with difficulty I could stand erect. This was my situation when I commenced the use of *N H. DOWN'S ELIXIR*—I and to my great joy, and the greater joy of my friends, I found that the use of it a few days had regulated my bowels equalized the circulation and produced a healthy moisture upon the skin. I used three bottles in two weeks, which entirely removed the soreness and weakness from my stomach, gave me a good appetite, and greatly improved my strength. I continued its use six weeks, using six bottles at which time I was able to resume my ministerial labors I have since recommended it to a large number, and have never known it to fail of doing good where the directions were followed
I have given it to my children in *colds*, and in a case of *measles*, and it has proved ALL it is recommended to be
I therefore *cheerfully* recommend N. H. DOWN'S VEGETABLE BALSAMIC ELIXIR to all who are afflicted with any of the diseases for which it is recommended. Yours truly, J. L. TUTTLE
Camden, August, 1849
Facts deduced from the foregoing letter
1st Down's Elixir is laxative—curing costiveness while other medicine increases that difficulty.
2d It is perspirant It equalises the circulation—restores a healthy moisture to the skin, and vigor and tone to the system.
3d It removes soreness and weakness from the stomach—gives a good appetite, and restores strength to the system
4th It cures colds—is an effectual remedy for the measles, and proves "ALL IT IS RECOMMENDED TO BE"
It is sold by Druggists and dealers in medicine throughout the country, and at wholesale and retail at proprietor's prices by DAVID BUGBEE, G W LADD, CURTIS & PERKINS A P GUILD, WM MANN, G. McFARLAND Bangor, L. S Smith, J W Curtis & Co., Hampden, Chas Johnson, J R Chick, Frankfort; H. P. CONSUMPTION
in all Christianized and civilized countries, has caused a larger proportion of deaths than any other malady that afflicts the human family, and, until within a few years, there has not been any *certain remedy* to stop the devastation of that destroyer But now—
BRANT'S INDIAN
[illegible]
cures very many of the most strongly marked and developed cases of PULMONARY CONSUMPTION—*real, undoubted cases of ulcerated and diseased* LUNGS—such HOPELESS cases as were never before cured by any other medicine *So utterly hopeless* were some of the afflicted persons, as to have been pronounced by physicians and friends to be ACTUALLY DYING some, who had their burial-clothes made, have been cured, and yet live, others, who it was said would not live another day, are now as well and hearty as they ever were
It possesses all the cleansing and purifying virtues nearly as powerful and active as the preparation which we call
BRANT'S INDIAN PURIFYING EXTRACT
The Balsam differs from the Extract, because it possesses *several medications which are peculiarly adapted to, and are essentially necessary for, the cure of*
COUGHS AND CONSUMPTIONS,
and all diseases of a pulmonary nature—such diseases as usually prove so fatal under ordinary treatment, when they attack the
Breast, Throat, Lungs, and Heart.
This BALSAM HEALS AND CURES ULCERS *in the LUNGS*, and elsewhere *internally, as certainly and easily as the* PURIFYING EXTRACT *cures and heals ulcers externally* This Balsam cures NINE *cases of Cough and Consumption* out of TEN, after all other remedies have *failed to do good*
Thousands of Consumptions
and *Chronic Coughs* abundantly prove its *unfailing efficacy* in such diseases and its undoubted curative power, and soothing healing properties in the following complaints and diseases viz *Spitting of Blood, Bleeding at the Lungs, Pain in the Breast and Side, Night Sweats Nervous Complaints, Palpitation of the Heart, Cholera Infantum, Dysentery and Summer Complaints in Children and Adults*, and ALL FEMALE WEAKNESSES
CONSUMPTION.
A DYING WOMAN CURED!
We state this cure, to prove the POWER TO SAVE LIFE, when this BALSAM is used, even after the person is *considered by physicians and friends to be in the last stages of disease*—actually DYING—and, in this case, SO FAR GONE, *that the* SHROUD *and* BURIAL CLOTHES *were bought!* For the particulars of this case, and the *respectable and undoubted proof* of all the circumstances and facts, we refer to our PAMPHLETS This cure was effected on Mrs ZIBA DYKEMAN, of *Ballston Spa, Saratoga County, N Y* We can prove, beyond a doubt, *many others almost equally hopeless and incurable cases of Coughs and Consumptions CURED*, which were *pronounced incurable* by SKILFUL PHYSICIANS
A DOCTOR CURED!
DR J W FRENCH *of Hillsdale Hillsdale Co , Michigan*, about the 1st of January, 1849, wrote as follows "I have been in the regular practice of medicine in this place for nine years but was obliged to quit the practice of my profession in consequence of ill health I was so severely afflicted with a *Chronic Disease of the Lungs*, as to convince me that I HAD THE CONSUMPTION, past doubt I coughed almost incessantly, night and day and had severe pains and soreness in my chest, side, and breast I tried the remedies recommended by the most skilful of the profession all to no effect, excepting the nausea and debility caused by them I was prejudiced against patent medicines, and have no faith now in them generally But I was induced—as an experiment, more than through faith—to try a bottle of BRANT'S INDIAN PULMONARY BALSAM and I do here acknowledge, for the benefit of the afflicted, or whom it may serve, that the effect of its use on me was the most prompt and salutary of any medicine I ever took, or knew the effect of in all my practice. *My cough was immediately relieved*, and in about eight or ten days I was free from cough, soreness of the chest, and pain, and now consider and *pronounce myself a* WELL MAN" Dr French is now a respectable druggist at Hillsdale
FITS, FITS, FITS.
Messrs J K LIPPINCOTT & SON respectable merchants at *Hillsgrove Sullivan county Pennsylvania* wrote to us May 12 1849, stating among other BENEFITS which had been derived from the use of BRANT'S PULMONARY BALSAM that one of their customers had just informed them that her child, which had been subject to FITS *for several years*, was cured by the use of BRANT'S BALSAM
Would soon be in a Grave.
Mr WILLIAM D JENNINGS a merchant at *Pierpont Centre Ashtabula county Ohio*, wrote to us October 2, 1848 and stated a cure of CONSUMPTION which the use of BRANT'S *INDIAN PULMONARY BALSAM* had effected in Mr WILLIAM CROCKET, of an adjoining town He said Mr Crocket had sought relief from the best physicians and numerous medicines, but found none, for the fatal hand of that unrelenting monster, *Consumption*, had taken fast hold on his vitals, and was so destroying and debilitating his body, that he was a mere skeleton He was *given up* by his physicians and all friends, as one who would soon *inhabit a grave* But even in this last extremity, strange and marvellous as it may seem, yet it is true, that the use of only *five bottles* of BRANT'S INDIAN PULMONARY BALSAM has unclenched the hand of the destroyer, and restored Mr Crocket to health and he is now a *healthy, hearty, rugged man*
S D DANN, Esq , *merchant and postmaster at Jefferson*, an adjoining town, wrote to us about the same time, and stated that he was acquainted with Mr CROCKET, and *testified to his* CURE, *and all the above-named facts*
Could not Live a Day longer!
Messrs E B CALDWELL & Co, *of East Oneonta, Otsego Co* , N Y , respectable druggists, wrote to us "We have just heard through Mr Whiteman, a respectable citizen of this place, of an important cure of *Consumption*, which BRANT'S INDIAN PULMONARY BALSAM has produced on the wife of an acquaintance of his, who resides in the town of Pairmo the county She had been long confined to her bed, and was so dangerously diseased, that her friends believed it impossible for her to *live more than* ONE DAY LONGER But, when all other hope utterly failed, she commenced taking *BRANT'S PULMONARY BALSAM*, and its medical efficacy has raised her from a DYING BED, so that she is now *going about and attending to her domestic household affairs and duties!* She acknowledges, and it is very evident, that she is indebted to BRANT'S BALSAM for her recovery from a long, severe, and dangerous sickness, and her friends and neighbors consider that medicine invaluable"
RAISED FROM THE GRAVE.
Messrs PRATT & FOSTER, *merchants of West Cornwall, Conn.*, said *BRANT'S BALSAM* had effected cures of such hopeless cases of CONSUMPTION in their town that now no other cough medicine could be sold there, that *it had raised some as if from the* GRAVE—some that physicians and all the friends said MUST DIE! One gentleman, in particular, was so far gone, that his physician told him it was *useless to take any more medicine* He then, *when no hope was left*, began to take BRANT'S BALSAM—GOT WELL—*and is now as well as ever he was*
Many Consumptions Cured.
Mr S H CLARK, merchant, *Clyde, Wayne county N Y*, wrote to inform us that BRANT'S PULMONARY BALSAM sold readily at Clyde, and said "If the statements of some of our most respectable people, and personal, visible knowledge, can be relied on, its medical virtues have cured *many consumptive persons*, several of whom I am acquainted with, who were so hopelessly sick as to be considered, by physicians and all friends, past a possibility of cure, and yet, the facts are, BRANT'S BALSAM has restored them to PERFECT HEALTH."
LUNGS BLED—MUST DIE!
Mr Z S TERRY, *merchant, Byron, Genesee county, N Y*, wrote, August 24, 1848 "BRANT'S medicine is doing wonders here It has cured a man of *Consumption* that all the physicians had said *must die* When he commenced taking Brant's medicine, he could not raise his hand to his head, *he bled at the lungs*, and every symptom seemed to indicate that he must die, but, astonishing to all, he is now able to labor, and rides all over the county He used *only five bottles* It has also cured a young lady of *Consumption* in Orleans county, which her father *says no doctor could cure*"
Mr MILLER, a merchant of the same place, has certified to the truth of the above statement
WAS BELIEVED PAST CURE.
Mr CORNELIUS H SMITH, merchant, *Collins Centre, Erie county, N Y* , January 16, 1849, said "Your BRANT'S INDIAN PULMONARY BALSAM and BRANT'S PURIFYING EXTRACT are nearly al sold, and I want immediately another supply, for they sell more rapidly, and *give better satisfaction*, than all the other medicines we have for sale. The *Pulmonary Balsam* has raised a lady here from a bed of dangerous and severe sickness, which all the doctors had given up as INCURABLE They said she MUST DIE *with a Consumption of the Lungs* After all had pronounced the case HOPELESS, she commenced taking *BRANT'S BALSAM* —and now *she is well*"
CHRONIC DYSENTERY,
and SUMMER COMPLAINTS, *in children or grown persons*, cured *without any failure whatever* Also—
CHOLERA INFANTUM.
No mother need ever mourn the death of her child by that child-destroying complaint, when *teething* in warm weather —*Cholera Infantum*, or what is called SUMMER COMPLAINT—if "BRANT'S PULMONARY BALSAM" be administered to the child It should however, in *such cases*, be used in *twice as large potions* as the directions on each bottle prescribe, until the complaint is checked

THE ORIGINAL DISCOVERER OF THE
Genuine Townsend Sarsaparilla.
Old Dr Townsend is now about 70 years of age, and has long been known as the *AUTHOR* and *DISCOVERER* of the *GENUINE ORIGINAL "TOWNSEND SARSAPARILLA"* Being poor, he was compelled to limit its manufacture, by which means it has been kept out of market and the sales circumscribed to those only who had proved its worth and known its value It had reached the ears of many nevertheless, as those persons who had been healed of sore diseases, and saved from death, proclaimed its excellence and wonderful
HEALING POWER.
Knowing, *many years ago* that he had, by his skill science and experience devised an article which would be of incalculable advantage to mankind when the means would be furnished to bring it into universal notice when its inestimable virtues would be known and appreciated This time has come the means are supplied this
GRAND AND UNEQUALLED PREPARATION is manufactured on the largest scale and is called for throughout the length and breadth of the land especially as it is found incapable of degeneration or deterioration
Unlike young S P Townsend s, it improves with age and never changes but for the better because it is prepared *on scientific principles* by a *scientific man* The highest knowledge of Chemistry and the latest discoveries of the art, have all been brought into requisition in the manufacture of the Old Dr's Sarsaparilla The Sarsaparilla root it is well known to medical men contains many medicinal properties and some properties which are inert or useless, and others which if retained in preparing it for use produce *fermentation* and acid, which is injurious to the system Some of the properties of Sarsaparilla are so *volatile* that they entirely evaporate and are lost in the preparation if they are not preserved by a *scientific process*, known only to those experienced in its manufacture Moreover these *volatile principles*, which fly off in vapor or as an exhalation under heat, are the very *essential medical properties* of the root which give to it all its value
Any person can boil or stew the root till they get a dark colored liquid which is more from the coloring matter in the root than from any thing else they can then strain this insipid or vapid liquid sweeten with sour molasses, and then call it SARSAPARILLA EXTRACT or SYRUP But such is not the article known as the
GENUINE OLD DR JACOB TOWNSEND'S SARSAPARILLA
This is so prepared that all the inert properties of the Sarsaparilla root are first removed every thing capable of becoming acid or of fermentation, is extracted and rejected, then every particle of medical virtue is secured in a pure and concentrated form, and thus it is rendered incapable of losing any of its valuable and healing properties Prepared in this way, it is made the most powerful agent in the
Cure of innumerable diseases.
Hence the reason why we hear commendations on every side in its favor by men women, and children We find it doing wonders in the cure of
CONSUMPTION DYSPEPSIA, and LIVER COMPLAINT, and in RHEUMATISM SCROFULA, PILES, COSTIVENESS all CUTANEOUS ERUPTIONS PIMPLES BLOTCHES, and all affections arising from
IMPURITY OF THE BLOOD.
It possesses a marvellous efficacy in all complaints arising from *Indigestion* from *Acidity of the Stomach* from unequal circulation determination of blood to the head, palpitation of the heart, cold feet and hands cold chills and hot flashes over the body It has not its equal in *Colds* and *Coughs* and promotes easy expectoration and gentle perspiration relaxing stricture of the lungs, throat and every other part
But in nothing is its excellence more manifestly seen and acknowledged than in all kinds and stages of
FEMALE COMPLAINTS.
It works wonders in cases of *Fluor Albus* or *Whites Falling of the Womb Obstructed Suppressed* or *Painful Menses Irregularity* of the menstrual periods and the like and is as effectual in curing all the forms of *Kidney Disease*
By removing obstructions and regulating the general system, it gives tone and strength to the whole body, and thus cures all forms of
Nervous diseases and debility,
and thus prevents or relieves a great variety of other maladies as *Spinal irritation Neuralgia, St Vitus Dance Swooning Epileptic Fits Convulsions &c*
It cleanses the blood excites the liver to healthy action, tones the stomach and gives good digestion, relieves the bowels of torpor and constipation allays inflammation purifies the skin, equalises the circulation of the blood producing gentle warmth equally all over the body, and the insensible perspiration, relaxes all strictures and tightness removes all obstructions and invigorates the entire nervous system Is not this then
The medicine you pre-eminently need!
But can any of these things be said of S P Townsend's inferior article? This young man's liquid is not to be
COMPARED WITH THE OLD DR'S
because of one GRAND FACT that the one is INCAPABLE of DETERIORATION and
NEVER SPOILS,
while the other DOES *souring fermenting*, and *blowing the bottles* containing it into fragments , the sour acid liquid exploding and damaging other goods ' Must not this horrible compound be poisonous to the system?—*What! put acid into a system already diseased with acid* What causes Dyspepsia but acid? Do we not all know that when food sours in our stomachs what mischiefs it produces? flatulence, heartburn palpitation of the heart, liver complaint diarrhœa, dysentery, colic, and corruption of the blood? What is Scrofula but an acid humor in the body? What produces all the humors which bring on Eruptions of the Skin, Scald Head, Salt Rheum Erysipelas, White Swellings, Fever Sores, and all ulcerations internal and external? It is nothing under heaven, but an acid substance, which sours, and thus spoils all the fluids of the body, more or less. What causes Rheumatism but a sour or acid fluid which insinuates itself between the joints and elsewhere irritating and inflaming the delicate tissues upon which it acts? So of nervous diseases, of impurity of the blood of deranged circulations, and nearly all the ailments which afflict human nature
Now is it not horrible to make and sell, and *infinitely worse to use* this
SOURING, FERMENTING, ACID "COMPOUND" OF S. P. TOWNSEND,
and yet he would fain have it understood that Old Dr Jacob Townsend's *Genuine Original Sarsaparilla* is an IMITATION of his inferior preparation!!
Heaven forbid that we should deal in an article which would bear the most distant resemblance to S. P. Townsend's article! and which should bring down upon the Old Dr. such a mountain load of complaints and criminations from Agents who have sold and purchasers who have used S. P. Townsend's FERMENTING COMPOUND
We wish it understood, because it is the *absolute truth*, that S. P. Townsend's article and Old Dr Jacob Townsend's Sarsaparilla are *heaven wide apart, and infinitely dissimilar*, that they are unlike in every particular having not one single thing in common
As S P Townsend is no doctor, and never was is no chemist no pharmaceutist—knows no more of medicine or disease than any other common unscientific unprofessional man, what *guarantee* can the public have that they are receiving a genuine scientific medicine containing all the virtues of the articles used in preparing it, and which are incapable of changes which might render them the AGENTS of Disease instead of health.
But what else should be expected from one who knows nothing comparatively of medicine or disease? It requires a person of some experience to cook and serve up even a common decent meal How much more important is it that the persons who manufacture medicine, designed for
WEAK STOMACHS AND ENFEEBLED SYSTEMS
should know well the medical properties of plants the best manner of securing and concentrating their healing virtues also an extensive knowledge of the various diseases which affect the human system, and how to adapt remedies to these diseases!
It is to arrest frauds upon the unfortunate to pour balm into wounded humanity to kindle hope in the despairing bosom to restore health and bloom and vigor into the crushed and broken and to banish infirmity that OLD DR JACOB TOWNSEND has SOUGHT and FOUND the opportunity and means to bring his
Grand Universal Concentrated Remedy
within the reach and to the knowledge of all who need it, that they may learn and know by joyful experience, its
Transcendent Power to Heal.
